

Choice Policy

According to the Illinois General Assembly, the primary purpose of schooling is the transmission of knowledge and culture through which students learn in areas necessary to their continuing development and entry into the world of work. To fulfill that purpose, the State Board of Education prepared State Goals for Learning with accompanying Illinois Learning Standards. The Board of Education gives priority in the allocation of resources, including funds, time, personnel, and facilities, to fulfilling this purpose. The Board continuously monitors student achievement and the quality of the District's work. The Superintendent shall supervise the following quality assurance components, in accordance with State statute and State Board of Education rules, and continuously keep the Board informed:

1. Prepare each school's annual recognition application and quality assurance appraisal, whether internal or external, to assess each school's continuous school improvement.
2. If applicable, implement a No Child Left Behind Act plan, including the completion of the NCLB Consolidated Application, and seek Board approval where necessary or advisable.
3. Continuously assess whether the District and its schools are making adequate yearly progress as defined by State law.
4. If applicable, develop District and School Improvement Plans, present them for Board approval, submit them to the State Superintendent for verification, and supervise their implementation. If applicable, develop a restructuring plan for any school that remains on academic watch status after a fifth annual calculation.
5. Prepare a school report card, present it at a regular Board meeting, and disseminate it as provided in State law.

The Superintendent shall make regular assessment reports to the Board, including projections whether the District and each school is or will be making adequate yearly progress as defined in State law. The Superintendent shall seek Board approval for each District and/or school improvement plan and otherwise when necessary or advisable.

School Choice for Students Enrolled in a School Identified for Improvement, Corrective Action, or Restructuring This section applies to only those students enrolled in a school identified by the Board for school improvement, corrective action, or restructuring as

defined by federal law. Those students may transfer to another public school within the District, if any that has not been so identified. If there are no District schools available into which a student may transfer, the Superintendent or designee shall, to the extent practicable, establish a cooperative agreement with other districts in the area. A student who transfers to another school under this policy may remain at that school until the student completes the highest grade at that school. The District shall provide transportation only until the end of the school year in which the transferring school ceases to be identified for school improvement or subject to corrective action or restructuring. All transfers and notices provided to parents/guardians and transfer requests are governed by State and federal law. Students from low-income families shall be provided supplemental educational services as provided in federal law if they attend any District school that: (1) failed to make adequate yearly progress for 3 consecutive years, or (2) is subject to corrective action or restructuring.
