Wellness Policy Monitoring, Accountability, and Community Engagement

Recordkeeping

The District will retain records to document compliance with the requirements of the wellness policy at on the shared network. Documentation maintained in this location will include but will not be limited to:

- The written wellness policy;
- Documentation demonstrating compliance with community involvement requirements, including (1) Efforts to actively solicit DWC membership from the required stakeholder groups; and (2) These groups' participation in the development, implementation, and periodic review and update of the wellness policy;
- Documentation of annual policy progress reports for each school under its jurisdiction; and
- Documentation of the triennial assessment* of the policy for each school under its jurisdiction;
- Documentation demonstrating compliance with public notification requirements, including: (1) Methods by which the wellness policy, annual progress reports, and triennial assessments are made available to the public; and (2) Efforts to actively notify families about the availability of wellness policy.

Annual Progress Reports

Annual progress reports will include:

- The website address for the wellness policy and/or how the public can receive/access a copy of the wellness policy;
- A description of each school’s progress in meeting the wellness policy goals;
- A summary of each school's events or activities related to wellness policy implementation;
- The name, position title, and contact information of the designated District policy leader(s) identified in Section I; and
- Information on how individuals and the public can get involved with the DWC or SWC.

The annual report will be available in English and Spanish.

The DWC, "in collaboration with individual schools wellness committee will establish and monitor goals and objectives for the District's schools, specific and appropriate for each instructional unit (elementary or secondary OR elementary, middle, and high school, as appropriate), for each of the content-specific components listed in Sections III-V of this policy.

The District will track, analyze, and report on any correlations between improvements in health-promoting environments with education outcomes, such as absenteeism, disciplinary referrals, test scores, average grades, or health measures such as consumption of whole grains, fruits, or vegetables through the school meal programs or BMI, or psycho-social measures such as self-reported "connectedness," or other school climate measures. The District is encouraged to collaborate with local research institutions and universities.

The District will also track and annually report other related information, such as findings from food safety inspections, aggregate participation in school meals programs, income reported from competitive food sales, fundraising revenues, and other such information, as feasible.
**Triennial Progress Assessments**

At least once every three years, the District will evaluate compliance with the wellness policy to assess the implementation of the policy and include:

- The extent to which schools under the jurisdiction of the District are in compliance with the wellness policy;
- The extent to which the District’s wellness policy compares to model wellness policies; and
- A description of the progress made in attaining the goals of the District’s wellness policy.

The position/person responsible for managing the triennial assessment and contact information is Chief Financial Officer (217) 384-3642.

The DWC, in collaboration with individual schools, will monitor schools’ compliance with this wellness policy.

The District and schools will actively notify households/families of the availability of the triennial progress report.

**Community Involvement, Outreach, and Communications**

The District will actively notify the public about the content of or any updates to the wellness policy annually, at a minimum. The District will also use these mechanisms to inform the community about the availability of the annual and triennial reports.

The District is committed to being responsive to community input, which begins with awareness of the wellness policy. The District will actively communicate ways in which representatives of DWC and others can participate in the development, implementation, and periodic review and update of the wellness policy through a variety of means appropriate for that district. The District will also inform parents of the improvements that have been made to school meals and compliance with school meal standards, availability of child nutrition programs and how to apply, and a description of and compliance with Smart Snacks in School nutrition standards. The District will ensure that communications are culturally and linguistically appropriate to the community, and accomplished through means similar to other ways that the district and individual schools are communicating other important school information with parents.

**Nutrition**

**Water**

To promote hydration, free, safe, unflavored drinking water will be available to all students throughout the school day* and throughout every school campus* ("school campus" and "school day" are defined in the glossary). The District will make drinking water available where school meals are served during mealtimes. In addition, students will be allowed to bring and carry (approved) water bottles filled with only water with them throughout the day.

**Competitive Foods and Beverages**

The District is committed to ensuring that all foods and beverages available to students on the school campus* during the school day* support healthy eating. The foods and beverages sold and served outside of the school meal programs (i.e., “competitive” foods and beverages) will meet the USDA Smart Snacks in School nutrition standards, at a minimum. Smart Snacks aim to improve student health and well-being, increase consumption of healthful foods during the school day, and create an environment that reinforces the development of healthy eating habits.

To support healthy food choices and improve student health and well-being, all foods and beverages outside the reimbursable school meal programs that are sold to students on the school campus during the school day* will meet or exceed the USDA Smart Snacks nutrition standards.
These standards will apply in all locations and through all services where foods and beverages are sold, which may include, but are not limited to, a la carte options in cafeterias, vending machines, school stores, and snack or food carts.

**Celebrations and Rewards**

All foods offered on the school campus will meet or exceed the USDA Smart Snacks in School nutrition standards, including through:

1. Celebrations and parties. The district will provide a list of healthy party ideas to parents and teachers, including non-food celebration ideas. Healthy party ideas from the [Alliance for a Healthier Generation](https://www.healthygeneration.org) and from the [USDA](https://www.usda.gov).
2. Classroom snacks brought by parents. The District will provide to parents a list of foods and beverages that meet Smart Snacks nutrition standards; and
3. Rewards and incentives. The District will provide teachers and other relevant school staff a list of alternative ways to reward children. Foods and beverages used as a reward, should be healthy choices. Food and beverages will not be withheld as punishment for any reason, such as for performance or behavior.

**Fundraising**

Foods and beverages that meet or exceed the USDA Smart Snacks in Schools nutrition standards may be sold through fundraisers on the school campus* during the school day*. The District will make available to parents and teachers a list of healthy fundraising ideas [examples from the [Alliance for a Healthier Generation](https://www.healthygeneration.org) and the [USDA](https://www.usda.gov)].

Schools will be encouraged to use only non-food fundraisers, and encourage those promoting physical activity (such as walk-a-thons, jump rope for heart, fun runs, etc.).

Fundraising outside school hours will be encouraged to sell non-food items.

Concessions must include some foods and beverages that meet or exceed the Smart Snacks nutrition standards.

**Physical Activity**

**Physical Education**

The District will provide students with physical education, using an age-appropriate, sequential physical education curriculum consistent with national and state standards for physical education. The physical education curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts (discussed in the “Essential Physical Activity Topics in Health Education” subsection).

All students will be provided equal opportunity to participate in physical education classes. The District will make appropriate accommodations to allow for equitable participation for all students and will adapt physical education classes and equipment as necessary.

All District [elementary students](https://www.urbanaschools.org) in each grade will receive physical education for at least 60 minutes per week throughout the school year. All [District] secondary students (middle and high school) are required to take physical education throughout all secondary school years, unless alternate means are approved.

The District recommends that the physical education program will promote student physical fitness through individualized fitness and activity assessments (via the [Presidential Youth Fitness Program](https://www.presidentialfitnessprogram.org) or other appropriate assessment tool) and will use criterion-based reporting for each student.
Essential Physical Activity Topics in Health Education

Schools will provide physical activity topics and health education that follows the Illinois Learning Standards for health and physical education curriculum

**Recess (Elementary)**

All elementary schools will offer at least 20 minutes of recess on all or most days during the school year.

Outdoor recess will be offered when weather is feasible for outdoor play

In the event that the school or district must conduct indoor recess, Teachers and staff will encourage physical activity for students to the extent practicable.

Recess will complement, not substitute, physical education class. Recess monitors or teachers will encourage students to be active, and will serve as role models by being physically active alongside the students whenever feasible.

**Physical Activity Breaks (Elementary and Secondary)**

The District recognizes that students are more attentive and ready to learn if provided with periodic breaks when they can be physically active or stretch. Thus, students will be offered periodic opportunities to be active or to stretch throughout the day on all or most days during a typical school week. The District recommends teachers provide short (3-5 minute) physical activity breaks to students during and between classroom time. These physical activity breaks will complement, not substitute, for physical education class, recess, and class transition periods.

The District will provide resources and links to resources, tools, and technology with ideas for physical activity breaks. Resources and ideas are available through USDA and the Alliance for a Healthier Generation.

**Active Academics**

Teachers will incorporate movement and kinesthetic learning approaches into “core” subject instruction when possible (e.g., science, math, language arts, social studies, and others) and do their part to limit sedentary behavior during the school day.

The District will support classroom teachers incorporating physical activity and employing kinesthetic learning approaches into core subjects by providing annual professional development opportunities and resources, including information on leading activities, activity options, as well as making available background material on the connections between learning and movement.

Teachers will serve as role models by being physically active alongside the students whenever feasible.

**Before and After School Activities**

The District offers opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods. The District will encourage students to be physically active before and after school.

**Active Transport**

The District will support active transport to and from school, such as walking or biking. The District will encourage this behavior by engaging in many of the activities below; including but not limited to:

- Designation of safe or preferred routes to school
Promotional activities such as participation in International Walk to School Week, National Walk and Bike to School Week
- Secure storage facilities for bicycles
- Instruction on walking/bicycling safety provided to students
- Promotion of safe routes program to students, staff, and parents via newsletters, websites, local newspaper
- Crossing guards are used
- Crosswalks exist on streets leading to schools
- Walking school buses are used
- Documentation of number of children walking and or biking to and from school

Community Partnerships

The District will encourage relationships with community partners (i.e. hospitals, universities/colleges, local businesses, etc.) in support of this wellness policy’s implementation.

Community Health Promotion and Engagement

The District will promote to parents/caregivers, families, and the general community the benefits of and approaches for healthy eating and physical activity throughout the school year. Families will be informed and invited to participate in school-sponsored activities and will receive information about health promotion efforts.

Staff Wellness and Health Promotion

A staff wellness subcommittee will focus on staff wellness issues, identify and disseminate wellness resources, and performs other functions that support staff wellness in coordination with human resources staff. School based wellness committee in the District will encourage strategies to support staff in actively promoting and modeling healthy eating and physical activity behaviors. The District promotes staff member participation in health promotion programs.

The District will encourage the use of Smart Snacks for meetings if food is provided.

Professional Learning

When feasible, the District will offer ongoing professional learning opportunities and resources for staff to increase knowledge and skills about promoting healthy behaviors in the classroom and school

Glossary:

Extended School Day - time during before and after school activities that includes clubs, intramural sports, band and choir practice, drama rehearsals, etc.

School Campus - areas that are owned or leased by the school and used at any time for school-related activities such as the school building or on the school campus, including on the outside of the school building, school buses or other vehicles used to transport students, athletic fields, and stadiums (e.g. on scoreboards, coolers, cups, and water bottles), or parking lots.

School Day - midnight the night before to 30 minutes after the end of the instructional day.

Triennial – recurring every three years.
