- Utilization less than 70%
- Over Target Capacity
- Over Maximum Capacity

- Notes:**
1. Projections have been adjusted to factor in dual language placement. ESL Intensive Program students go to King. Concept 1 is shown with French and Spanish dual language going to Yankee Ridge.
 2. Projections have been adjusted to factor in Wiley students having option to attend a different school than where they reside.
 3. Projections do not factor in Wiley students who have been attending a different school that reside in a building that will become the dual language school

- RSP Disclaimers:**
1. Capacity was provided by district administration; Target Capacity is 75% of the maximum capacity (see enrollment analysis).
 2. Total enrollment projections may differ between concepts and current due to program changes and rounding at the building level.
